"The way this traditional, graceful chair is shrouded by a rough, utilitarian material is completely delicious: 'I would' use this in both a traditional interior space to make it less formal and serious, or in a modern space to create texture."

+ Clarke & Reilly created this one-of-a-kind chair, which comes in a set, as part of an exclusive collection for Blackman Cruz. The sexy, elegant piece is upholstered in 19<sup>th</sup>-century Mennonite petticoats, creating texture and depth as the material ebbs and flows.
